Achos Girls Division

Lag BaOmer Celebration🔥

Lag BaOmer was filled with excitement and joy for our elementary girls. 💙
The day began with a lively rally at Ohel Menachem, full of music, energy, and Lag BaOmer spirit 🎊 We then joined the community Lag BaOmer parade, celebrating together with pride and unity 🚶‍♀️🔥The girls continued on to enjoy a special lunch at Beach Park, ending the day on a fun and happy note!

Davening Trip📖

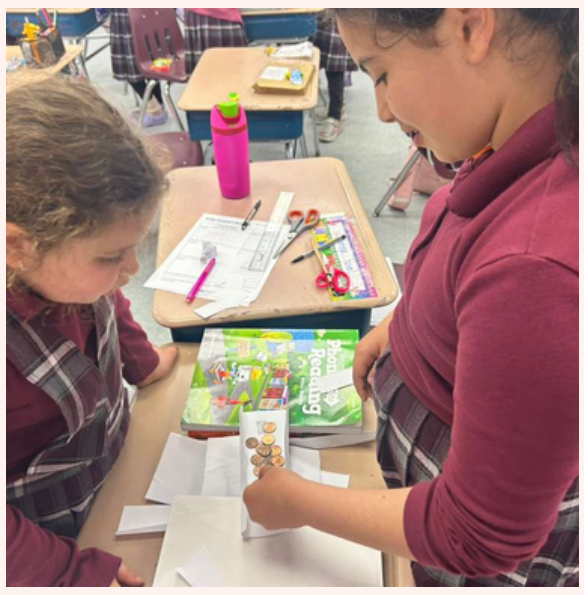

The 4th and 5th grade girls had the beautiful opportunity to daven at Ohel Menachem on a meaningful trip 💙 The experience gave them a special chance to connect and daven in an inspiring setting. Thank you to Morah Nechama Dina for making this possible.

Bridge Building & Engineering Fun! 🌉🔧

Second and third grade students learned with Mrs. Alon how bridge engineers use push and pull forces to support weight and balance gravity when building bridges. Using paper and books, they created their own model bridges and tested their strength by adding pennies, then worked on improving and strengthening their designs through teamwork and creativity.

Boba Party Fun!

A huge thank you to Rachel Sellem for generously sponsoring our fun Boba Party!
The girls enjoyed a well-deserved treat after working hard, following directions, and showing great teamwork in the classroom. 🎉👏
A special thank you as well for creating such a fun incentive that encouraged positive behavior and made this celebration extra exciting!

Making Testing Sweeter 🍪

For any testing that takes place in Mrs. Toussoun's class, she always brings such a warm and thoughtful touch by sharing delicious homemade baked goods with all the girls 🍪
This week, the girls and boys took their ELA test and truly enjoyed the warm baked treats, which made the experience extra comforting and special. Thank you so much for this beautiful and thoughtful gesture 💕
